WORKSHOP ON LASERS

Military Applications and Countermeasures

April 30, 2024

Laser'24 Workshop offers a platform for fostering dialogue, collaboration, and interaction among scholars, researchers, and students in the field of lasers and their military applications. Participants will provide scientific and technical contributions on a variety of subjects, including nonlinear optics, imaging, laser physics and applications, optical remote sensing, and optical countermeasures... etc.

TOPICS

LASER WEAPONS

OPTICAL COUNTERMEASURES

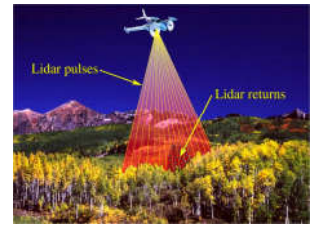

TERAHERTZ AND IR DETECTION & IMAGING

OPTICAL REMOTE SENSING

LASERS FOR QUANTUM CRYPTOGRAPHY

Organizing Committee

LASER'24 Workshop organizing committee includes researchers working in various fields in relation with the laser such as Nonlinear Optics, Terahertz Technologies, Electro-Optics, IR Imaging, ...

Pr. Mohamed LAZOUL
Dr. Ayoub BOUTEMEDJET
Dr. Djalal BENYAHIA
Dr. Mohamed Faouzi MELALKIA
MsC. Omar BELMAHI
MsC. Boufateh BEZZIOU

The submission deadline has been extended to **march 02,2024**.
Contributions should be sent via email to : laser2024@emp.mdn.dz
